

GENESEE TRANSPORTATION COUNCIL

Annual Listing of Federally Obligated Projects
for Federal Fiscal Year 2024
(October 1, 2023 through September 30, 2024)

Purpose

Federal regulations require an “Annual Listing” of transportation projects, including investments in pedestrian walkways and bicycle facilities, for which federal funds have been obligated in the preceding year be made available for public review by the Metropolitan Planning Organization (MPO). The listing must be consistent with the funding categories identified in the Transportation Improvement Program (TIP).

In order to meet this requirement, Genesee Transportation Council (GTC) staff solicited information from the New York State Department of Transportation (NYSDOT) and the Rochester Genesee Regional Transportation Authority (RGRTA), and compiled a list of projects located in the seven-county NYSDOT-Region 4 area for which federal transportation funds were obligated in Federal Fiscal Year (FFY) 2024 (i.e., between October 1, 2023 and September 30, 2024).

An obligation is the U.S. Department of Transportation's legal commitment to pay the federal share of a project's cost. Projects for which funds have been obligated are not necessarily initiated or completed in a given program year, and the amount of the obligation in a single year will not necessarily equal the total cost of the project.

Background

The U.S. Department of Transportation requires every metropolitan area with a population over 50,000 to have a designated MPO to qualify for receipt of federal highway and public transportation funds. The Governor of New York State designated GTC as the MPO responsible for transportation planning in the nine-county Genesee-Finger Lakes region, which includes Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming, and Yates counties.

As the designated MPO, GTC is responsible for programming transportation improvements in the Rochester Metropolitan Planning Area (MPA). The Rochester MPA includes all of Monroe County plus the adjacent developed areas of Livingston, Ontario, and Wayne counties. GTC works cooperatively with NYSDOT to develop the TIP for the seven-county NYSDOT-Region 4 area, including the Rochester MPA but excluding Seneca and Yates counties.

Transportation Improvement Program

The TIP programs the timing and funding of all transportation improvements involving federal funds over at least a four-year period for the seven-county NYSDOT-Region 4 area, including the Rochester MPA. These projects may emerge from the Unified Planning Work Program, and must be consistent with the overall objectives and strategies identified in the region's Long

Range Transportation Plan. The TIP can be viewed online at <http://www.gtcmpo.org> under "Documents".

To guide the TIP development process, GTC established a TIP Development Committee (TDC) comprised of representatives from the MPA counties (Livingston, Monroe, Ontario, and Wayne), the City of Rochester, Rochester Genesee Regional Transportation Authority (RGRTA), and NYSDOT. This Committee also meets regularly to assist GTC and NYSDOT in maintaining the TIP between updates, including review of substantive changes in projects that may require amending the adopted TIP.

The key steps in the TIP development process are:

- Solicit project proposals
- Evaluate and rank proposals
- Develop preliminary program
- Conduct public review
- Develop final program
- Adoption by GTC Board

Public Involvement

The GTC *Public Engagement Plan* (adopted February 2021) establishes specific requirements for public involvement in the development of the TIP. A draft is published for a minimum 30-day public review and is made available in public locations throughout the seven-county NYSDOT-Region 4 area, including the county planning offices, central repository libraries in the Rochester MPA counties, and offices of other public agencies affiliated with GTC. This public review document is also made available through the GTC website.

During the public review period, GTC sponsors at least two public meetings at locations across the Rochester MPA that include a presentation on the TIP and identification of proposed projects. The purpose of these meetings is to receive verbal and written comments on the public review document. Written comments can also be submitted via fax, email, and regular mail throughout the public review period. GTC staff provides a synopsis of verbal comments, copies of written comments, and a summary of comments by common project focus to the TDC and the GTC Planning Committee for consideration.

This Annual Listing furthers the GTC commitment to public involvement by providing information regarding the implementation of projects that are programmed in the TIP.

Annual Listing

The list of obligated projects is organized and presented in a manner consistent with the Transportation Improvement Program (TIP). For each project, the list includes:

- ID: The identifier (Project Identification Number or PIN) that GTC and NYSDOT uses to track projects.
- Agency: The organization sponsoring the project (state, county, city, etc.)

- **Project Title:** The project name/title.
- **2024 Federal Aid Programmed Amount:** The total amount of federal aid programmed on the project for FFY 2024.
- **Source of Obligated Federal Funds:** The funding program that is the source of obligated federal funds.
- **Obligated Amount:** The amount of funds obligated on the project in FFY 2024.
- **Remaining Balance:** The unobligated amount (balance) of federal funds on a project in FFY 2024. This amount may be negative if more funds were obligated than programmed on a project in a given FFY.

The TIP identifies project costs and schedule by phase. These phases are:

- **Scoping:** This phase includes meetings with project developers and designers, local government representatives, and other involved parties. Decisions are made regarding specific elements that will be included in the project and the range of design alternatives that will be investigated.
- **Preliminary Engineering:** This phase includes basic engineering work on each alternative, traffic studies, environmental analyses, and other work specific to the project. Public outreach in accordance with state and federal requirements is used to gain community input on the project. A preferred alternative is selected to advance the project.
- **Detailed Design:** This phase includes detailed engineering work on the preferred alternative. This phase results in the plans and specifications that the construction contractor will work from.
- **Right-of-Way Incidentals:** This phase includes preparation work required prior to right-of-way acquisition.
- **Right-of-Way Acquisition:** This phase includes the acquisition of right-of-way (property) necessary to complete the project. Acquisition can be achieved through the purchase of property or an easement.
- **Construction:** This phase includes all work necessary to build the project.
- **Construction Inspection:** This phase includes ongoing inspection to ensure construction is performed properly and conforms to specifications.
- **Other:** This phase is usually associated with public transportation projects and involves the purchase and acquisition of vehicles and associated preventive maintenance, though in some cases, such as for station, parking, and maintenance/storage facilities, the construction of fixed or permanent facilities is undertaken.

This phase also includes funding for agency staff and/or contractors to perform work that supports the management and operation of the transportation system (e.g., bridge inspection, traffic center operations, etc.).

The attached table lists projects from the TIP in the seven-county NYSDOT-Region 4 area for which federal transportation funds were obligated in FFY 2024.

GTC's Commitment to the Public

The Genesee Transportation Council assures that no person shall, on the grounds of race, color, national origin, disability, age, gender, or income status, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity. GTC further assures every effort will be made to ensure nondiscrimination in all of its programs activities, whether those programs and activities are federally funded or not.

En Español

El Consejo Genesee del Transporte asegura completa implementación del Título VI de la Ley de Derechos Civiles de 1964, que prohíbe la discriminación por motivo de raza, color de piel, origen nacional edad, género, discapacidad, o estado de ingresos, en la provisión de beneficios y servicios que sean resultado de programas y actividades que reciban asistencia financiera federal.

Financial assistance for the preparation of this report was provided by the Federal Highway Administration and Federal Transit Administration.
