

GENESEE TRANSPORTATION COUNCIL

RESOLUTION

Resolution 17-75 Accepting the *Regional Land Use Monitoring Report (2016)* as evidence of completion of UPWP Task 4220

WHEREAS,

1. The *FY 2017-2018 Unified Planning Work Program* includes Task 4220, Regional Land Use Monitoring, for the purpose of documenting land use and development trends in the Genesee-Finger Lakes Region for use by GTC, member agencies, and others;
2. Said Task included inventorying and analyzing the number of new building permits issued in 2016 for residential, industrial, commercial, and community service developments, total square footage, and total value of new buildings for each municipality within the Genesee-Finger Lakes Region;
3. Said Task has been completed and has resulted in the *Regional Land Use Monitoring Report (2016)* which includes a time series analysis of development in the Genesee-Finger Lakes Region; and
4. Said Report has been reviewed by GTC staff and member agencies through the GTC committee process and has been found to be consistent with the goals, objectives, and recommendations of the Long Range Transportation Plan.

NOW, THEREFORE, BE IT RESOLVED

1. That the Genesee Transportation Council hereby accepts the *Regional Land Use Monitoring Report (2016)* as evidence of completion of UPWP Task 4220; and
2. That this resolution takes effect immediately.

CERTIFICATION

The undersigned duly qualified Secretary of the Genesee Transportation Council certifies that the foregoing is a true and correct copy of a resolution adopted at a legally convened meeting of the Genesee Transportation Council held on September 7, 2017.

Date _____

KEVIN C. BUSH, Secretary
Genesee Transportation Council

Regional Land Use Monitoring Report (2016)

UPWP Task #4220

Executive Summary

Project Purpose:

The Genesee Transportation Council (GTC) provides funding annually for the *Regional Land Use Monitoring Report* under its Unified Planning Work Program. This report provides information on the issuance of building permits in 2016 to identify areas of growth within the Genesee-Finger Lakes Region (G-FL Region) that might require transportation planning and service modifications.

The G-FL Region is comprised of Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming, and Yates Counties. The report analyzes the number of permits issued, total square footage, and total value for buildings for each municipality within the region as well as the Metropolitan Planning Area (MPA). The MPA covers Monroe County and the municipalities adjacent to Monroe County in Livingston, Ontario, and Wayne Counties, as well as the Town and City of Canandaigua. The analysis looks at the following categories and respective subcategories: “residential” (single-family, two-family, three or four-family, five-or- more family, mobile/manufactured homes/other); “industrial;” “commercial” (offices/banks, retail/service, service stations, hotels/motels); “community service” (hospitals/health facilities, schools/churches, public works/safety, utilities); and “not elsewhere classified.”

A five-year trend analysis is provided for permitted residential units in all nine counties; industrial, commercial, and community service building permits are analyzed over the five-year period as well. In addition, a 10-year time series (or historical trend) analysis is provided for residential, industrial, and commercial development in the MPA.

Project Methodology:

The building permit data included in this report was collected through surveys sent to the municipal or county officials responsible for the collection and dissemination of such data in the nine counties. In six counties, these officials were, in most municipalities, the code or zoning enforcement officers. In some cases they were municipal clerks. In Seneca and Wyoming Counties building permit application approval and inspection are the responsibility of the respective county building departments. Those two departments provided the data for their counties. The Monroe County Planning and Development Department’s Division of Planning administered the surveys, received the responses from municipal officials in the County, and forwarded the data to the Genesee/Finger Lakes Regional Planning Council.

Surveys were distributed in January of 2017 asking for the requested data. The initial survey was followed up with a reminder e-mail along with a telephone reminder to those municipalities that had yet to respond. In some cases, several e-mails were sent or calls

were made to the appropriate parties in an effort to acquire the requested information. Complete data was collected for all 190 municipalities in the nine-county G-FL Region.

Analysis Overview:

The highest number of residential permits in the G-FL Region in 2016 was in the Town of Henrietta (118) and followed by the Towns of Webster (106), Gates (91), and Greece (91).

Over the years (2007-2016), the majority residential units permitted in the MPA have been in Monroe County, the most being in the Towns of Henrietta (1,563), Webster (1,414), Greece (1,390), the City of Rochester (1,279) and the Town of Penfield (1,181). In the MPA outside of Monroe County, the Towns of Victor (982), Canandaigua (965), and Farmington (964) in Ontario County, and the Towns of Ontario (316), Macedon (251) and Walworth (190) in Wayne County issued permits for the largest number of residential units over the same ten year time frame.

The data on permitted building activity and demolition tables are provided in appendices at the end of this report. Overall, the report serves as an information resource for the GTC and others to view and analyze permit activity in the G-FL Region to identify potential growth areas, and anticipate increased transportation needs.

Products:

1. Updated database and GIS coverage of building permits issued in the region
2. Report on building permits issued in the G-FL Region in 2016
